A Journal of the Royal Entomological Society
41 Queen's Gate, London SW7 5HU, England

AUTHOR INDEX

ANGUS, R.B. A chromosomal investigation of *Helophorus brevipalpis* Bedel (Coleoptera: Hydrophildae), with triploid Spanish females a possible source of American parthogenetic material. 56-60.

BELSHAW, ROBERT. Tachinid (Diptera) assemblages in habitats of a secondary succession in southern Britain. 151-161.

BELSHAW, T.D. See HOLLIER, J.A.

BRAGG, P. E. Illustrations and notes on the Phasmid *Diesbachia hellotis* (Westwood) from Borneo, including a new synonym. 95-101.

BUTTERFLY FESTIVAL 1992. 87.

CARVER, MARY. Caducity in fore-wings of *Mimophantia stictica* (Melichar) (Hemiptera: Flatidae). 24-26.

CASSELLA, J.P., CASSELLA, S. & HAY, J. Infestation of a laboratory heifer with the mallophagan louse *Damalia bovis*. 46-49.

CASSELLA, S, See CASSELLA, J.P.

COLLINS, GEOFFREY B. A specialised area of unknown function on the antennae of British grasshoppers (Orthoptera: Acrididae). 195-200.

ENTOMOLOGICAL CLUB GRANTS. 101.

FARROW, ROGER, A. & GREENSLADE, PENELOPE. A vertical migration of collembola. 38-45.

FORGE, HELEN, See RANDALL, KAREN.

GIDNEY, ALAN, R. & SNOW, KEITH, R. The spectral sensitivity of larvae of *Aedes aegypti* L. (Diptera: Culicidae). 50-55.

GORDON, D. C. & GORDON, S. C. An infra-red video technique to record the feeding activity of a nocturnally active insect (*Otiorhynchus singularis*) (Coleoptera Curculionidae). 171-177.

GORDON, S. C. See GORDON, D. C.

GREENSLADE, PENELOPE A. See FARROW, ROGER A.

GUNN, A. The ecology of *Campodea lankastri* (Silvestri) (Diplura). 201-209.

HAMPSHIRE BUTTERFLIES – Appeal for information. 108.

HAWKESWOOD, TREVOR J. Notes on the biology and host plants of the Australian leaf beetle *Lilioceris (Crioceris) nigripes* (Fabricius) (Coleoptera: Chrysomelidae). 210-212.

HAY, J. See CASSELLA, J. P.

HILTON, D. F. J. Odonata from the Magdalen Islands, Quebec, Canada. 102-108.

HOLLIER, J. A. & BELSHAW, T. D. Changes in Neuroptera assemblages in an old field succession in southern Britain. 187-194.

JUDD, S. & ROTHERAM, I. D. The phytophagous insect fauna of *Rhododendron ponticum* L., in Britain, 134-150.

KING, G. E. Book Review: Las mariposas entre los Antiguos Mexicanos. 22-23.

LOPEZ, F. & ORTUNO, V. M. Five teratological cases in *Tetramorium* Mayr and *Leptothorax* Mayr, and some comments on the incidence of teratologies in ants. 123-133.

MAJERUS, MICHAEL, See RANDALL, KAREN
OOI, PETER C. Effect of larval food on development of the common grass yellow. 165-170.
ORTUNO, V. M. See LOPEZ. F.
PHILLIPS, W. M. Assemblages of weevils (Curculionoidea) in the lower tree canopy of a mixed temperate woodland. 61-78.
PRATT, GORDON Se SASSAMAN, CLAY
RANDALL, KAREN, MAJERUS, MICHAEL & FORGE, HELEN. Characteristics for sex determination in British ladybirds (Coleoptera: Coccinellidae). 109-122.
RAVENSCROFT, N. O. M. The declining status of the butterfly *Plebejus argus* Linnaeus on the Sandlings of East Anglia. 88-94.
RAW, ANTHONY. Mate searching and population size of two univoltine solitary species of the bee genus *Epicharus* in Brazil. 1-9.
RAW, ANTHONY. Solitary bees (Hymenoptera: Megachilidae), restricted to identical resources for nesting, recognized their own nests: an example of genetically determined personal scents? 79-87
ROTHERHAM, I. D. See JUDD, S.
SASSAMAN, CLAY & PRATT, GORDON. *Melanophora roralis* (L.) (Diptera: Rhinophoridae), a parasite of isopod crustaceans, in a laboratory culture. 178-186.
SHAPIRO, ARTHUR, M. A. A postscript on *Vanessa indica* (Herbst) (Lepidoptera: Nymphalidae). 162-163.
SMYLLIE, BILL. The brown argus butterfly in Britain — a range of *Aricia* hybrids. 27-37.
SNOW, KEITH R. See GIDNEY, ALAN R.
VERRALL SUPPER, 9.

SUBJECT INDEX

Aedes aegypti, spectral sensitivity of larvae, 50.
Antennae of British grasshoppers, specialised area on, 195.
Ants, comments of teratology in, 123.
Aricia hybrids, a range of, in Britain, 162.
Campodea lankastri, ecology of, 201.
Changes in Neuroptera assemblages in old fields in southern Britain, 187.
Collembola, vertical migration of, 38.
Common grass yellow, effect of larval food on development, 165.
Damalia bovis infesting a laboratory heffer, 46.
Diesbacha hellotis from Borneo, notes on and new synonym of, 95.
Epicharis, mate searching and population size in, 1.
Eurema hecabe, see Common grass yellow.
Helophorus brevipalpis, chromosome investigation of, 56.
Insect fauna of *Rhododendron ponticum* in Britain, 154.
Ladybirds, sex determination of, 109.
Leptothorax teratology in, 123.
Lilioceris (Crioceris) nigripes, biology and host plants of, 210.
Megachilidae, nest recognition in species occupying identical habitats, 79.
Melanophora roralis, parasitizing isopod crustaceans in laboratory culture, 178.
Mimophantia stictica, caducity in forewings of, 24.
Odonata from the Magdalen Islands, 102.
Otiorhynchus singularis, infra-red video technique to record feeding of, 171.
Plebejus argus, decline of in Sandlings of East Anglia, 88.
Sex determination in British ladybirds, 109.
Tachinid assemblages in habitats on Southern Britain, 151.
Tetramorium, teratology in, 123.
Vanessa indica, how did it reach Madeira and Canary Islands? 10.
Vanessa indica, postscript to above, 162.
Weevils, assemblages of in temperate woodland tree canopy, 61.

It is to be distinctly understood that all views, opinions, or theories, expressed in the pages of **The Entomologist** are solely those of the author(s) concerned .
